

Candidates

Our primary objective is to help you find the right new job. We recruit at various levels, from Trainee positions to more Senior vacancies on a permanent basis, dealing with both smaller independent and larger multinational organisations.

At Sapling we are committed to providing you with career guidance and advice, from how to present your CV to the best way to prepare for and perform in an interview. We will endeavour to gain an in depth understanding of what is important to you from a prospective employer, and will not try to push you into attending interviews for roles which do not measure up.

We will always gain your permission before sending your CV to an organisation, and will provide you with a comprehensive briefing about the vacancy, the company and its culture, so that you can make an informed decision about whether it is right for you. Before interviews, we will brief you on the personality of the client and their expectations so that you feel as comfortable and confident as possible.

It is important to remember that we are a proactive recruitment consultancy and will happily work on your behalf to seek out positions which may not be advertised in order to fulfil your aspirations.

You can register with us in a number of ways:-

- Click the quick apply button to forward your CV to us directly
- Search our database of jobs and submit your CV in application to a specific vacancy

In either case, a Consultant will call you back to discuss your current situation and career aspirations.

If you would rather not send your CV to us at this stage, you can either

- Fill in the call back form, indicating the best time for us to get in touch with you, or
- Call us at your leisure on 0161 228 6448.

Please note that all services to Candidates are provided free of charge. All calls are always treated with the strictest of confidence and utmost professionalism.
